Santa Ana College

EXPERIENCE

Data Visualizer Using Mapbox

Localligence Contract / Remote/ Aug 2021 - Dec 2021

link: https://github.com/Mperez5891/490project_mapbox

Through CSUF, my team was contracted by the company to redesign their insurance data visualizing website using the Mapbox API and React

- Gained knowledge of how to utilize the Mapbox API
- Tasked with data visualization using heat maps and allowing users to customize them, and basic drawing tool implementation

MacroBlog

Back-End Engineering Class/ CSUF / Jan 2021 - May 2021

link: https://github.com/Mperez5891/CSPS449_Projects/tree/main/Project7

This project is the backend to a Twitter like application that can handle multiple posts from multiple users and is attached to a relational Database.

DnDEz

Software Development Class / CSUF / Aug 2020 - Dec 2020

link: <https://github.com/Mperez5891/Group-A-DnD-Companion>

DnD made easy! This project is designed to be a companion web app for Dungeons and Dragons 5E.

Built using Python (Flask), HTML, CSS, and JavaScript. We used SQLite3 for the Database.
